

Curriculum Vitae

Name	Andrzej CICHOCKI (Ph.D. Dr.Sc.)
Status	Senior Team Leader (STL) RIKEN, BRAIN SCIENCE INSTITUTE and professor Systems Research Institute, Polish Academy of Science, Newelska 6, Warszawa, Poland www.bsp.brain.riken.go.jp
Date and Place of Birth	08-08-1947, Poland,
Marital Status	married with two children of age 22 and 35
Languages	English, German, Russian, (Polish mother language)
Citizenship	Poland

Education

- M.Sc. in Electrical Engineering with honors (Automatic Control and Electronics), 1972
- Ph.D. in Electrical Engineering and Computer Science 1976
- Dr. Sc. (habilitation) in Electrical Engineering and Computer Science 1982 (All from Warsaw University of Technology, Poland).
- Alexander von Humboldt Fellowship in Federal Republic in Germany 1984-1985.

Professional Experience

- From 2012 till present professor in Systems Research Institute at the Polish Academy of Science, and Senior Team Leader of the Laboratory for Advanced Brain Signal Processing, RIKEN Brain Science Institute, Japan
- 1995 – 2012 Full Professor, at Department of EE, Warsaw University of Technology
- 2000- 2010 Head of the Laboratory for Advanced Brain Signal Processing, Brain Science Institute, Riken, Japan
- 1998-2000 Head of the Laboratory for Open Information Systems, Brain Science Institute, Riken, Japan
- 1995-97 Head of the Laboratory for Artificial Brain Systems, Frontier Research

Program, Riken, Japan

- 1993-94 Visiting Guest Professor, at University Erlangen-Nuernberg and Principal Investigator of several DFG research projects, Germany
- 1986-1992 Associate Professor (Docent), Department of Electrical Engineering Warsaw University of Technology
- 1984–1985 Alexander von Humboldt Research Fellowship, Germany
- 1976-86 Assistant Professor (Adjunkt), Department of Electrical Engineering Warsaw University of Technology
- 1979 (one year) Lecturer in Higher Institute of Electronics in Malta 1973-76 Teaching and Research Assistant, Institute of Theory of Electrical Engineering, Measurements and Information Systems, Warsaw University of Technology, Poland

Honors and Awards

- M.Sc. Diploma with distinction (honors)--1972, Ph.D. Diploma--1976, Doctor of Science (habilitation)--1982.
- Alexander von Humboldt Research Fellowship, Germany, April 1984–Sept. 1985.
- Several Awards and Prizes by a Rector of the Warsaw University of Technology , a Minister of Higher Education and Research in Poland and the President of RIKEN, Japan for Scientific Achievements, awards for best books, for teaching excellence in the Universities and best papers published in Journal Neural Networks by Neural Network Society (1999) and in Journal Entropy in 2011 and 2014.

Professional Activities

Fellow of the IEEE since 2013.

Journal Editorship

- Founding Editor-in-Chief of International Journal of Computational Intelligence and Neuroscience since 2006 till 2011.
- Associate Editor of IEEE Transaction on Neural Networks (1999-2006)
- Guest Co-editor of special issue of the IEEE Transactions on Neural Networks on Information Theoretic Learning, March 2004.
- Guest Co-editor of special issue of the IEEE Journal of Selected Topics in Signal Processing on fMRI Analysis for Human Brain Mapping (Dec. 2008).

- Guest Co-editors of four Special Issues in Journal of Computational Intelligence and Neuroscience.
- Associate Editor of IEEE Transaction on Cybernetics, IEEE Transactions on Neural Networks and Learning Systems, Journal Methods in Neuroscience.
- Associate Editor of Journal Big Data and Information Analytics (BigDIA).

Member of Program Technical Committees

- Chair of IEEE Circuits and Systems Technical Committee for Blind Signal Processing
<http://cil.ece.uic.edu/BSP/> 2007-2008
- Member of IEEE Circuits and Systems Technical Committee for Blind Signal Processing
<http://cil.ece.uic.edu/BSP/> since 2003
- Member of IEEE MLSP (Machine Learning for Signal Processing) Technical Committee, 1998-2000 and from 2008- till 2014

Conference Program Committees

- Co-chairman of the International Program Committee ICA-2003, Nara, Japan, April 2003
- Member of the International Program Committee ICASSP Conferences 1997-2003
- Member of the International Program Committee ICONIP Conferences 1998-2009
- Member of the International Program Committee MSLP Workshops 1998-2002, 2009
- Member of the International Program Committee ICA Conference 1999-2008.
- Member of the International Program Committee and International Liaison EUSIPCO 2002

Reviewer

- Proceedings Academy of Science (PNAS)
- IEEE Transactions on Signal Processing
- IEEE Transactions on Systems, Man and Cybernetics
- IEEE Transactions on Neural Networks
- IEEE Transactions on Circuits and Systems
- IEEE Signal Processing Letter
- Electronics Letters
- Signal Processing Journal
- Biomedical Cybernetics
- Neural Computation
- Neurocomputing
- Journal of Neural Networks
- NIPS (Neural Information Processing Systems) and many others

Research Monographs (Books in English with affiliation of the Warsaw University of Technology, Poland)

- **A. Cichocki and R. Unbehauen Neural Networks for Optimizations and Signal Processing** (Corrected and extended edition), New York: Wiley, Nov. 1994.
- **R. Unbehauen and A. Cichocki: CMOS Switched-Capacitor and Continuous-Time Integrated Circuits and Systems** (Springer-Verlag, 1989).

Actual Research Interests

- Multi-way analysis, tensor decompositions and factorizations, group and multi-block analysis in applications to processing and mining of biomedical and geophysical massive data, big data analytics in biomedical engineering, computational neuroscience and communication.
- Tensor Networks and their applications in big data analytics
- Early detection of Alzheimer's disease
- Blind source separation (BSS), especially ICA, SCA, NMF, multiway BSS, Linked multi-block, multilinear ICA, nonnegative tensor factorizations
- Intelligent signal processing and massive data analysis and their applications
- Learning theories and optimization techniques
- Inverse problems and their biomedical applications
- Brain computer interface (BCI), Brain Robot Interface and noninvasive recording and

visualization of brain signals (EEG/MEG, fMRI)

- Neural computation and nonlinear adaptive systems
- Optimization and operations research and their biomedical applications.
- Neuroinformatics and bioinformatics.

Teaching Experience

- Supervisor of more than ten Ph.D. thesis (including):
 1. Zbigniew Waclawek, "Estimation in Real Time Parameters of Transient Signals in Power Systems", Technical University Wroclaw, 1995.
 2. Leszek Moszczynski, "Applications of Adaptive Systems for Blind Source Separation" - Warsaw University of Technology, 1996.
 3. Slawomir Stepniewski: "Applications of Genetic Algorithms for Design of Architecture of Feed-Forward Neural Networks" - Warsaw University of Technology, 1998.
 4. Ireneusz Sabala: "Multichannel Deconvolution and Separation of Statistically Independent Signals for Unknown Dynamic Systems" - Warsaw University of Technology, 1999.
 5. Ryszard Szupiluk: "Methods for Reduction and Estimation of Noise in Blind Signal Processing" - Warsaw University of Technology, 2000.
 6. Tomasz Rutkowski "Reducing Environmental and Transmission Interference to Improve Automatic Speaker Recognition", Technical University Wroclaw, Institute of Telecommunication and Acoustic, 2001.
 7. Anh Huy Phan "Tensor Decompositions: Algorithms and Applications" Kitakyushu Institute of Technology, Japan, July 2011.
 8. Yu Zhang "Brain Computer Interface" Jao Tong University, Shanghai, China, June 2013.
- Supervisor of more than 25 M.Sc. and Diploma Engineer thesis at University Erlangen Nuernberg, Germany and Warsaw University of Technology Poland Adjunct Professor in Kyushu University of Technology (since 2008)
- Reviewer and examiner of 9 Ph.D. thesis in several Universities worldwide
- Lecturer at Warsaw University of Technology - Poland, University Erlangen Nuernberg - Germany, Higher Institute of Electronics - Malta
- Courses taught and developed: Nonlinear Adaptive Systems, Adaptive Blind Signal and Image Processing, Neural Networks, Optimization Methods, Electronic Circuits, Circuits and Systems, Biomedical Signal Processing.

Invited Plenary or Key-Note speaker

- (O1) Cichocki A: “*Era of Big Data: New Approach via Tensor Networks and Tensor Decompositions*” - 2013 International Workshop on Smart Info-Media Systems in Asia (SISA2013) (Nagoya, Japan September 2013).
- (O2) Cichocki A.: “*Extraction of Hidden Variables, Factors and Features Using Tensor Decompositions – Data Fusion*” -7-th International Symposium on Neural Networks (Shanghai June 2010).
- (O3) Cichocki A.: “*Multi-way Array (Tensor) Factorizations and Decompositions and their Potential Applications*”. 8th International Conference on Independent Component Analysis and Signal Separation, Brazil (invited talk 2009.3).
- (O4) Cichocki A. “*Sparse and Nonnegative Tensor Factorization/Decompositions and their Applications in Analysis of Multimodal, Multiblock Biomedical Signals, especially in Brain Computer Interface*”. 15th International Conference on Neural Information Processing of the Asia-Pacific Neural Network Assembly, New Zealand (invited talk 2008.11).
- (O5) Cichocki A. “*Multi-way Blind Source Separation Using Nonnegative Matrix Factorization and Sparse Component Analysis*”. 15th European Signal Processing Conference (EUSIPCO), Poland (invited talk 2007.9).
- (O6) Cichocki A. “*Blind Information Processing: New Tools for Analysis of Multi-sensory, Multimodal Data*”. 3rd International Conference on Computational Intelligence, Robotics and Autonomous Systems, Singapore (invited talk 2005.12).
